

Training Requirements

Learn about your requirements by your provider type.

If you work for more than one employer or have multiple roles or clients, different training standards may apply. If you fall into more than 1 category, you must meet the highest training and certification requirements.

Provider Type Contact your employer for questions about your Provider Type and training deadline.	Orientation & Safety Complete prior to providing care.	Basic Training Complete by your deadline.	Continuing Education 12 hours required annually. Optional Continuing Education
